HOIST HIRE SERVICES LIMITED

GEDA 500Z/ZP SL

TRANSPORT PLATFORM

The Geda 500 Z/ZP has two separate control systems and can be used either as a material hoist only or as a transport platform for passengers and materials.

The transport platform control with a speed of 12 m/min is activated for transporting passengers and materials. For transporting construction materials only, the device is switched to the material hoist mode with a lifting speed of 24 m/min.

Particularly useful when site constraints dictate unusual footprint availability, the single-mast Geda 500 Z/ZP SL transport platform can provide the ability to transport sheet material in its large platform.

| Maximum Hei | ght | 100 | m |
|------------------|---------------|-------------|-------|
